

## Singular Asset Management signs UN-supported Principles for Responsible Investment

31 October 2019

As part of our ongoing effort to foster sustainable investing across the firm, we are delighted to announce that we are now a proud signatory to the UN-supported Principles for Responsible Investment (PRI), joining 2000+ globally responsible institutions.

*PRI CEO Fiona Reynolds said: "We are delighted to welcome Singular Asset Management as a PRI signatory. In joining PRI, Singular Asset Management is recognising the importance of ESG factors in investing to its clients in South East Asia including high net-worth individuals, financial institutions, corporate pension funds, family offices, private and public listed companies and other institutional investors. We look forward to working with the team."*

The PRI is an international global network of asset managers, owners and service providers working together to put responsible investment into practice. The principles, which are voluntary, aim to provide a framework for integrating environmental, social and corporate governance (ESG) considerations into investment decision-making and ownership practices.

As a firm and individuals, we are committed to sustainability - that of responsibility investing. We are committed to continue and to significantly step up our commitment to responsible investment.

Singular Asset Management believes by publicly committing to investing our funds in a more responsible and sustainable manner using the PRI's framework, we can contribute to developing a more sustainable global financial system.
